	These cows are easy to handle, although alert in the yards, they're never a problem to handle/ process.			
Handled With	Bikes , Dogs , On foot , Vehicles			
Assessor Comments	A quality line of 22 Brangus cows with 22 Charolais-sired calves at foot, offered only as part of the "Hillcrest" – G Warren Enterprises dispersal. These 2020-drop cows present in great order, averaging 576kg at assessment, with strong, healthy calves averaging 75kg at foot. The calves are sired by both Red Factor and White Charolais bulls, resulting in a stylish line of well-muscled progeny showing excellent early growth. The cows themselves are moderate, thick, and broody types, displaying strong maternal instincts and doing a tremendous job on their calves. Since calving commenced, these cows have remained continuously with the Charolais bulls up until assessment on 07/11/2025, with a portion of these cows having had the option to rejoin. A genuine dispersal line with plenty of breeding value and performance appeal.
