Assessor Comments	A genuine line of 75 Angus cows with 76 Charolais-sired calves at foot, offered as part of the “Hillcrest” – G Warren Enterprises dispersal. The cows were originally purchased from Lake Midgeon, Narrandera as PTIC heifers, carrying Ardno Park and Rennylea bloodlines, and now form a highly productive, uniform young herd. Averaging 583kg at assessment, these 2022-drop females are on their second calf and breeding exceptionally well. Their 2024-drop progeny sold last week, with heifers making \$2,000/hd on AuctionsPlus and steers averaging \$2,400 into Jindalee Feedlot. The current Charolais-sired calves, by top-end Challambi Charolais bulls, average 162kg and display great bone, shape, and muscle development. Both red factor and white Charolais bulls were used, which explains the mix of black and silver calves throughout the line. The cows are moderate, deep-bodied, and doing a tremendous job on their calves. Left unjoined for the purchaser to join to the bull of their choice.
