Assessor Comments	On offer is a good quality line of 39x40 Angus cows with Angus calves at foot. These cows were purchased as young heifers out of local markets with all heifers being East Gippsland bred. The cows are Pinora blood and are in their prime breeding years being rising 5 year olds on their third calf. The cows have been running back with an Angus bull since 20/9 and will be removed on delivery day. All calves were vaccinated with their first 5in1 at assessment, a sample of calves were weighed at assessment and averaged 137kg. This line of potential 3in1 units has had all the hard work done for the buyer and offer plenty of quality breeding or trading options. Cows are on the do and still have plenty of capacity for more kilos to be added.
