Assessor Comments	**Quality Angus Females** Opportunity to purchase Registered Cows from HBR & APR Angus herd. These females represent an opportunity to secure excellent females with calves at foot all sired by Lawson Angus bulls. King Isle Farms offers up the opportunity to put together a group of females from the core of its herd. King Isle Farms operates as a Co Operator herd for Lawsons Angus hence females are registered under 'VLY' prefix and all offspring are fully registrable. All cows have been genomically tested with a 50K test. See Ebvs in links. They are very consistent for type and take into account they are only just starting to clean up in the coat coming out of a tight Autumn and winter. They are classed in breeders only being sold due to carrying naturally conceived calves. Previous buyers from these female reduction sales have always been pleased with the cattle. Note: 3 lots of sisters in same sale. Note: See video
