Assessor Comments	A nice line of Angus and Angus cross cows & calves. Cows present in fresh forward condition having benefited from a favourable season. Cows have very fresh calves by their side sired by Pharo Angus bulls. Calves are very even with the majority September drop with one calf younger. Cows are surplus to vendors requirement, all cows mouthed at assessment two cows missing one tooth the balance are all sound. Cows are milking well and should continue to raise a very nice calf given the right opportunity. Cows are up to date with animal health, calves have been marked and 7-1 vaccination. One calf treated with pink eye at assessment
