--------------	--

Pregnancy Terms	12 Head (100%) PTIC, from 4.5 to 6 months (at time of assessment 01/12/2025). Certificate Available.		
	AuctionsPlus Standard Terms apply.		
Temperament	Store Condition		
	Fwd Prime 100%		
	Yards	Crush	Paddock
Handled With	Quiet: 12 head	Quiet: 11 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	The cows were a pleasure to handle and as can be seen in the photos and video, were not perturbed by strangers. One cow got a little agitated in the confines of the crush and when getting an NLIS tag, however settled quickly back in the mob.		
Assessor Comments	Bikes		
Assessor	These 12, 4-8yo Limousin cows are good big quiet cows that rear great calves and have recently weaned this years calves. (see photo) There are 6 Apricot and 6 Black cows. Preg tested at assessment to Apricot Limousin bulls, the cows are well on their way to giving the successful buyer a return next Autumn. The owners have always sourced quality bulls, and handled their animals quietly from weaning to maturity. In this lot, there are two non-vendor bred cows, one is a Birubi cow with cracking to her front feet and what looks like an old vaccination lump on her offside neck, she is such a lovely quiet cow however that we left her in. The other is a Parsons (Kia-Ora) cow. There are 5 cows that show some hoof cracking, and one with a crossed toe. They do not seem to be affected by it. The vendors are also offering in the same catalogue, 11 3-6yo PTIC cows and 11 2023 drop PTIC heifers.
