Assessor Comments	8 x 8 Angus Cows with Angus calves at foot. Cows 3 years old. Really nice line of young females presenting in forward store condition doing a fantastic job on their calves averaging 168 kgs. (4 steers 4 heifers) They were purchased off a friend in the spring who had run out of feed. They had done it tough through the winter and have since started to really respond to a better feed situation. They have had the chance with the Angus bull back 2 months ago, but it would be advised to join them on arrival. They are now milking much better and the calves are growing like weeds. Calves all marked.
