Notable Traits	Traits 2 Head Long toe			
Assessor Comments	A very well bred line of mature age Red Angus cows and calves. They are predominately large frame to a few medium frame. Cows are in strong forward condition and doing an outstanding job on their calves. There is a couple of cows with long back toes but doesn't affect the way they get around. Some cows are starting to show a few signs of their age but will still rear a great calf. One calf was treated for early signs of pink eye at assessment. Ideal cows to potentially split however there are a few cows you would still get a few good years out of.
