	These cows were handled with ease. All cows were handled through crush and head bail to mouth with ease. A couple cows didn't appreciate being mouthed but nothing out of the ordinary.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	A Great line of proven Poll Hereford Cows. PTIC to a registered Poll Hereford Bull to start calving mid-February. These females are only available due to a change in breeding structure concentrating on a single breed. The calves out of these cows often rival their black counterparts when it comes to \$/head when selling. These cows are massive volume cows and stand on great structure. They will give the successful purchaser years of breeding high end weaners.
