On the whole well educated, quiet heifers and no problem to do anything with as a mob. One heifer when isolated did charge (aggressive), and another was pretty quick (stirry) and panicked when on her own, both heifers were fine in the mob. (Please see videos)

Notable Traits

	Traits
2 Head	Active Blight in one eye of 2 calves
1 Head	White udder
1 Head	White udder forward to flank

Assessor Comments	Young Angus & Angus cross heifers on their first calf. The bulk of these heifers would have gotten in calf very young, possibly as weaners on their mothers. On good nutrition it is thought they should continue to grow and be fertile, useful breeders for years to come. They are doing a pretty good job on their calves. Please Note; 2 calves had active blight at assessment and were treated, they will be treated again by the vendor at delivery.
