	Generally good to handle in and through the crush and settled well in the yard for photos. The calves were nice and settled in the yards. All stock are worked using Low Stress Stock Handling techniques and are used to being grazed in single wire grazing cells.		Paddock Temperament not assessed in Paddock
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Angus, DM and Brahman cross cows with calves at foot. Very good to good with 7% (one animal) fair quality. The calves have been sired by good to very good quality Angus bulls. The cows were purchased as different mobs to restock and are now being culled to tidy up mobs. All cows were mouthed at assessment, 13 sound mouth and 1 x gummy (teeth worn down). One cow noted with long toes, she is the last photo listed. Note she is in good condition handling the condition well. Two cows blue eye spot in one eye. Feet, eyes and udders are in line with what to expect with cows this age. Calves at foot are 7 steers (they were ringed at assessment) and 7 heifers, range 96 -175 kg. Cows were running with Angus bulls until 13/08/25. They all have been run in a cell grazing operation and are familiar with electric fences. Please note that vendor has another line of similar cows 23 x 23 on another property approx 60 km away. Note the male calves were ringed at assessment.
