Temperament

Yards	Crush	Paddock
Quiet: 20 head	Quiet: 14 head Slightly Stirry: 6 head	Quiet: 20 head

Heifers were generally calm & easy to handle in the yards. A few heifers appeared to be a little uneducated to the crush & confined spaces, with some heifers nervous or unsettled whilst being mouthed & were looking to exit the crush swiftly. All heifers settled well when returned to the mob.

Assessor Comments: A very good quality line of well bred, young Hereford cows with their second calf at foot. These heifers are displaying good medium frames & are presenting mostly in fresh, forward condition.These heifers represent classed-in surplus breeders which were sold due to ongoing dry conditions in Victoria. Heifers are WIRRUNA HEREFORD blood with marked & vaccinated calves at foot sired by registered WIRRUNA sires.The depth of breeding quality is clearly visible throughout these cattle, with the heifers exhibiting good frame & depth of bone, & the calves showcasing good carcass shape & softness, with sound growth rates for age. These cattle are showing the effects of the current dry, windy conditions with a significant percentage of calves developing pinkeye & dusty-eye weep which has been repeat-treated accordingly with Orbenin cream, & Coopers Easy Dose to deter fly annoyance. A great opportunity to secure young breeders with calves at foot, while old cows are selling so well
