Heifers & Calves walked into the yards & flowed through the assessment process with ease. Calves were all marked, tagged, vaccinated and weighed individually while standing calmly. Cows have been properly handled & are used to going up the race & into the crush with only one Heifer becoming nervous under pressure but showed no signs of aggression. A very well handled mob of Heifers & Calves. Cattle were relaxed afterwards for photos and videos in laneway paddock.

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: Black Spur Farms present a run of 30x30 Angus Heifers & Calves. From a one mark line of 60 units set for sale in this Auction, these Heifers have been split into two lots as they calved, this mob having slightly younger calves at foot. Predominately A.I. bred, these young outfits have a bright future with plenty of upside to improve your existing herd or are a perfect match to start a new program. The proof is in the results from these cattle with last seasons steers averaging an MSA index score of 63. With a list of accreditations such as EU, JBS Farm Assurance, Coles Graze & Greenhams Never Ever this line of Heifers & Calves will suit everyones agenda. Allan & Nena have a renowned operation based of performance & durability & these are no exception, they have presented this group in magnificent order with leading genetics resulting in a buying opportunity that does not come up very often. An easy recommended purchase, one not to be missed. (Note: Vendor has another lot in auction)
