Well handled cattle, moved regularly in a cell grazing program. One cow (visual tag number 16) was unsettled in the yards and can be removed at buyers request.

Handled With	Bikes , On foot , Vehicles

Notable Traits		Traits
	2 Head	Birthmark (side of face)

Assessor Comments	Excellent quality line of deep bodied, Team Te Mania Angus Cows & Calves showing all the attributes of 27 years of dedicated breeding as part of the Team Te Mania program. Cows weighed 657kg full (481-814kg) & Calves weighed 86kg (57-111kg) at assessment. Mostly younger cows with 15 second calvers (T drop) and five are fifth calvers (Q drop). They are running back to Te Mania TWIRL T1666 (link attached) since 22nd of November who will remain with the cows until delivery. The herd has been using AI annually since 1993 to leading Angus genetics which is clearly evident in the quality of these cows. If you are looking for high quality genetics to rebuild a herd or commence breeding, then here is your chance! All deemed very quiet and easy to handle except for one cow who can be removed if requested. Please note; calves are unmarked. Please call for further information.
