Assessor Comments	108 Angus Cows with 108 3-5 month old Rennylea sired Angus calves at foot, recently mated for 6 weeks to Rennylea bulls. Cows are predominantly 7 years old with small percentage older and younger. Cows handled well with an average 660kg at assesment, are in forward to fat condition and milking well for calves. These units are part of a dispersal due to business changeover and present a great opportunity to secure high grade genetics and value add to these cattle. Potential for long or short term agistment on vendor property to approved purchasers, please reach out.
