Assessor Comments	A well bred line of 1st calve Angus heifers 26-28 months of age with 2-4 month old Angus calves at foot. Both are by Coffin Creek Angus blood and redepastured back to the same Coffin Creek Angus bull since end of September till delivery. The cows present in fresh forward condition and milking up well for sappy calves at foot. Calves are marked and were nlis tagged at assessment. Majority of Cows are good medium to larger frame with 4 smaller framed cows in mob. They were easy to handle and would continue to improve on good feed and are putting everything into their calves which is showing through their thickness and depth. A great opportunity to purchase one mark heifers and with all the hard work done offering you a line of proven well bred future breeders.
