Notable Traits		
	Traits	
	1 Head	White udder

Assessor Comments	Young cows rising 4 years with sappy good size calves at foot that averaged 163kg at assessment. Cows are medium frame & present in forward store condition with good milk volume, there is 4 steers & 2 heifer calves at foot that are powering ahead showing good growth and weight for age. Vendor is selling these young cow & calf units because they did not make the AI program which is not a fault, its a factual statistic of AI. Given the age of the calves & the cows ideal condition they are ready to join to the bull of your choosing.
