Assessor Comments	29 Rennylea and Kelly Angus blood cows with calves at foot only being offered due to a change in program with vendor switching to Autumn calving. Cows are 3-4 years old and are doing a terrific job on their Kelly Angus blood calves. Calves are marked and have been given their first and second vaccination. Cows have been carefully selected to remain in the breeding herd over the years with a strong emphasis on temperament and type. The bull will remain with cows up until delivery.
