| 1 Head | Santa X |

**Assessor Comments**

An exceptional line of 20 Angus and Angus/Angus Santa heifers PTIC to True Blue T325. This sire ticks all boxes in calving ease and top 5% in growth. His figures can be viewed on the Angus society. These heifers were AI'd for two rounds, with the first being on the 14th of May 2025 and the second round being on the 5th of June 2025. Both rounds to the same sire. Please note there is 136 heifers in this line and will be a run out of the gate in 6 lots of 20 and 1 lot of 16. Please note the small % of the Santa breed in this consignment. All heifers have a great frame and will continue to grow as they age. They are all in great order to calve down in the coming months. And I think this is a great opportunity to purchase future breeders, as they might be hard to come by in the coming months.
