Assessor Comments

A good to very good quality line of vendor bred EU Angus and Angus x steers. They are medium to large frame and suit to background to export feeder weights. They also suit to take directly onto feed for the domestic grainfed market. They are grain and antibiotic free and would also be eligible for a pasture finished program. Vendor has an extended but not continuous calving and has multiple paddock based weanings each year. They are sired by good quality Te Mania Angus bulls. Approx four steers have slight hair loss around the neck, eyes and face which looks to be healing. No steer with active pink eye were in the line but the yards and the paddocks are very dry and they will be susceptible to infection. Steers will be rechecked prior to delivery. Please note the strict delivery period in place. The season has been very tough but these steers are still generally soft and shiny in the coat and will respond quickly to feed.
