Assessor Comments	Lead draft of 42 EU backgrounder Shorthorn steers, Futurity Shorthorn based herd, Feb / March drop 25, These steers averaged 326kgs (curfew weight at assessment), have been running on improved pastures and are fully up to date with animal health treatments. These steers would normally be carried through to meet feeder / export weights but due too unreliable deteriorating seasonal conditions they are up for offer. Tinman Farming has been using Futurity Shorthorns Bloodlines for 6 years and has worked closely with the Catts family to ensure they deliver the right article. Please note one steer has a Q - Tip sized old scarf in one eye.
