Comment on Fat Score 1 Cattle	Well bred calves ready to perform.				
Vendor Bred	Yes				
Stock History	Product of Pure Angus hfrs and cows, Waitara blood Sires, over station bred females with Waitara, Pathfinder, Lawson's and Te Mania background.				
Lifetime Traceable Bloodlines	100% of cattle in this lot are Lifetime Traceable Waitara blood. Pathfinder, Lawson's and Te Mania background.				
Grazing Conditions	Natural rye grasses and clover based herbage. Dry summer feed over lay. Returned to: Yard weaning on good quality cereal hay.				
Burr/Seed in Coat	Plenty of clover in swish. Could be a possibility of a Bathurst burr.				
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives				
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Cattlemax as of 15/12/2025 for 42 days				

Health Treatments	Drenched	15/12/2025	Cattlemax	
	Vaccinated	15/12/2025	7 in 1	First Dose
Vendor Comments	Annual draft of top line steer weaners. Selling earlier than previous years.			
Temperament	Quality Grades		Store Condition	
	Excellent	90%	Fwd Store	100%
	Very Good	10%		
	Yards		Crush	Paddock
	Quiet: 110 head		Quiet: 77 head	Temperament not assessed in Paddock
	Temperament is never a problem at Haddon Rig, these calves have only just come in and will be handled through the yards a couple more times before delivery. The cow herd always handle well and it flows on to their progeny.			
Handled With	Bikes , Dogs , Vehicles			
Notable Traits	Traits 10 Head blue eye scarring			
Assessor Comments	A line of 110 top of the drop vendor bred steer weaners. From a line of excellent quality cows. All top quality genetics used from premium bloodlines. Haddon Rig weaners have always been performance cattle with above average performance at major feedlots. These cattle will also do equally as well as grass fatteners, with moderate frame sizes and early maturity along with good IMF figures facilitating good carcass data. Vaccinated with 7 in 1 and backlined with Ivomectin at assessment, these calves are paddock ready upon delivery. Ideal premium quality cattle, actively pursued by major feedlotters when grown out to entry weights. Above average stats on older brothers on 150-200 day programs. Can sign a grass only declaration for grass, if needed. All calves with active pink eye also removed at assessment. A handful of lighter steers were removed from group at assessment.			
Assessor	Ashley McGilchrist (Level 1 Accredited) Phone: 0427 280 773
