Vendor Comments

Annual sale of our trade steers. Steers have performed well over the winter months and due to the lack of rain over the summer months, steers are being offered to the market.

Assessor Comments	A very good B-Double line of predominantly Hazledean blood Angus steers that were purchased in March/April 2025 out of the Monaro weaner sales and on Auctionsplus that have performed well through the winter months. These steers were weighed into a tight weight range of 340-395kgs full at assessment, representing the middle draft of the steers with a 5% tail removed. When purchasing steers the vendor made every effort to select reputable lines of well-bred steers that were known for their performance. Please note 5% of steers with warts on head and neck/white behind the navel. Vendor is also offering 160 steers in this sale that are the lead draft. All steers have received a Bovilis MH+IBR injection on the 6/01/2026. Ideal steers to go straight onto feed or grow out to heavier feeder or kill weights. Please call for further information.
