	Cattle are run in large mobs and haven't had a lot of experience in the yards. When being pushed through the race and on the scales, cattle showed limited signs of distress, with only a small percentage becoming agitated. Steers were respectful when being blocked and stayed in close proximity when being photographed.

Assessor Comments	Due to unforeseen circumstances relating to the catastrophic bushfires that devastated the Longwood and surrounds area, the opportunity has presented to purchase another draft of the renowned 'Glenmore' weaners. Since the fires, the cattle have settled well in a fresh paddock being fed hay and showing no signs of stress or injury. With a lifetime of utilising top-end Rennyalea Angus genetics, these steers present in strong, healthy condition displaying the phenotype and bone structure that would be ideally suited to target feedlot entry weights grow out into heavy grassfed bullocks. Steers are highly sought after in the area by repeat buyers due to the consistency of the product produced by the breeding operation. With the impeccable breeding behind these steers, this is a perfect line of cattle to feed and watch explode. Buy them once and you'll buy them again. Grass Fed only, Antibiotic Free.
