Quiet: 41 head

Quiet: 39 head

Temperament not assessed in

Slightly Stirry: 4 head

Slightly Stirry: 6 head

Paddock

Cattle are run in large mobs and haven't had a lot of experience in the yards. When being pushed through the race and on the scales, cattle showed limited signs of distress, with only a small percentage becoming agitated. Heifers were respectful when being blocked and stayed in close proximity when being photographed.

Handled With

Bikes , On foot , Vehicles

Notable Traits

Traits

3 Head Old Eye Scar

Assessor Comments	Due to unforeseen circumstances relating to the catastrophic bushfires that devastated the Longwood and surrounds area, the opportunity has presented to purchase another draft of the renowned 'Glenmore' weaners. Since the fires, the cattle have settled well in a fresh paddock being fed hay and showing no signs of stress or injury. With a lifetime of utilising top-end Rennylea Angus genetics, these heifers present in strong, healthy condition displaying the phenotype and bone structure that would be ideally suited to target feedlot entry weights or to grow out to joinable weights and add to an existing breeding program. Heifers are highly sought after in the area by repeat buyers due to the consistency of the product produced by the breeding operation. With the impeccable breeding behind these heifers, this is a perfect line of cattle to feed and watch explode. Buy them once and you'll buy them again. Grass Fed only, Antibiotic Free.
