Assessor Comments	High quality line of Lawson Angus blood EU accredited Angus steers weighed into a tight weight range from 350-400kg full (average 378kg) at assessment. Linton Park have been selecting Lawson Angus genetics for 20+ years with a focus on growth, marbling & temperament. The herd has developed a proven track record of performance targeting high-end feedlot markets, with marbling & growth performance in the top echelon. These steers are in ideal condition to continue in the paddock or feedlot and will provide plenty of compensatory weight gain.
