Assessor Comments Buyers, here is a great opportunity to purchase weaned Charolais cross heifers with plenty of breeding & compensational weight gain averaging 262kg. These heifers have great frame and stand on good bone with nice muscle structure to fill out. Heifers have good length of body with spring of rib. Heifers are soft easy doing types showing nice feminine characteristics. These heifers are well bred being out of Moongool & RiverGlen stud Charolais sires by medium to larger frame Charolais cross cows. This line of heifers are extremely well handled and quite to work through yards. Note 10 heifers tipped at assessment. 4 old blue eye scaring but note detrimental. Vendor has other line in same sale.
