Notable Traits	Traits					
	2 Head single side blue eye scarring (faint)					
	6 Head small amount of white on underline					
Assessor Comments	An even line of Angus and Angus cross heifers. Originally purchased as a single vendor line from the Casino district these heifers have performed well since arrival on the current property of residence, averaging one kilo per day of gain. Some heifers show a slight tropical breed content, being sleeker coated, but all heifers possess the growth for age and carcass attributes to be considered to fill most grass or grain fattening applications. Alternatively may be considered as future breeders once mature.
