A few heifers did have some rush through gate, again calming once pressure was applied.
Handled With	Paddock Temperament not assessed in Paddock	

Assessor Comments	10 Angus NSM heifers that would make ideal replacement heifers. They show plenty of style and growth. Some heifers are still cleaning up in coat, They were brought in, as cows and calves, original assessment suggest that these heifers be by Rennyalea & Te Mania blood Angus bulls. They have been running with rig/stag until December, but his testicle hadn't dropped from his belly. Respectively these heifers would also not disappoint if put on feed. Please note at least 2 heifers seen with slight varying white patches on udder. 1 heifer slipped through head bale before weight was recorded. Also to note vendor as 15 other heifers in today's sale.
