Assessor Comments	A full B-Double consignment of Angus steers presenting in ideal condition, type and weight to feed on. These steers are a combination of vendor bred calves with balance of the cattle purchased throughout the winter as weaners. Cattle are fresh, have plenty of frame, and have been well handled. They have continued to perform through the summer and in the last few weeks have been supplemented with good quality hay. Steers are up to date with all their animal health treatments including a Bovillis MH + IRB vaccination in December. Bottle numbers will be provided to the purchaser. A great opportunity to purchase 3 decks of feeder steers ready for induction.
