Assessor Comments	51 Quality classed in Angus heifers weighing 440kgs at assessment. A great example of the Angus breed, they show plenty of frame and scope, accompanied by great bone and muscle. After a tough winter they failed an AI Program and regretfully the season has dictated a sale. These cattle are renowned for their do-ability and come recommended. They would be ideal for either a feeding situation or would fit comfortably in to any breeding program. *Dunoon and Hazeldean blood* 2 x Pesti Guard Vaccinations #MSA and grasslands accredited #
