Vendor Comments

Annual sale of weaner calves. These steers were a pleasure to handle and have been no trouble. They have performed well for previous repeat purchasers.

Docile: 19 head

Quiet: 2 head

Quiet: 7 head

Very quiet steers and a pleasure to handle. A lot of emphasis is put on the temperament of this herd and the results are

	evident in these weaners. These steers are quiet to docile (a term not over used) and move easily and have been very well handled.
Handled With	Bikes , On foot , Vehicles
Assessor Comments	Complete drop of weaned Angus steers. They have not had a setback are losing their winter coat and are not overdone. These steers were a pleasure to handle through the yards and it is notable they have been extensively handled. These steers are 100% grassfed and antibiotic free. Genetically bred by large framed (600-800kg cows) quality Reiland and Hazeldean bld Angus dams and sired by a Reiland and a Bongongo bull. They are carrying years of genetic investment and are the result of a meticulous classing program. The quality of the genetics used and the strict selection criteria for replacement heifers is evident in the temperament and growth of these steers given their weight at 7-9 months of age. These steers have previously sold to repeat buyers and have been grown out to bullocks when required. Due to receiving constant human interaction from birth these calves are naturally settled and calm and are suitable for all operations.
