Well handled and generally quiet. Heifers were good to handle through the weighbox. Once in bigger yards heifers were fine without pressure and would walk feely through a gate

Assessor Comments	Well bred line of F1 heifers. Heifers are performing well in a drying season and ideal to background for a grain fed program if required. They present evenly in type and in slightly forward condition. They are bred from genuine large frame angus herd with progeny well sought after through feedlot programs like JBS. Heifers would generally be taken through to heavier weights if season allowed. Note 1 heifer with old eye scarring. Not detrimental. Vendor also offering a line of steers in same sale.
