Temperament	Yards Crush Paddock Docile: 15 head Docile: 10 head Docile: 17 head Quiet: 2 head Quiet: 7 head Very quiet heifers and a pleasure to handle. A lot of emphasis is put on the temperament of this herd and the results are evident in these weaners. These heifers are quiet to docile (a term not over used) and move easily and have been very well handled.

Handled With	Bikes , On foot , Vehicles
Notable Traits	Traits 1 Head Half a fist sized soft lump under - refer photo. 1 Head Minor eye blemish - eye blemish. 3 Head Small white markings on or near udder - within the breed standard.
Assessor Comments	A genuine front paddock article that would compliment most herds. They have not had a setback are losing their winter coat and are not overdone. These heifers were a pleasure to handle through the yards and it is notable they have been extensively handled. Genetically bred by large framed (600-800kg cows) quality Reiland and Hazeldean bld Angus dams and sired by a Reiland and a Bongongo bull. They are carrying years of genetic investment and are the result of a meticulous classing program. The quality of the genetics used and the strict selection criteria for replacement heifers is evident in the temperament and growth of the weaners annually. The top 10 heifers were retained out of the drop on weight only with these being the balance. Due to receiving constant human interaction from birth these calves are naturally settled and calm and are suitable for all operations. Please note brothers also being offered in today's sale. These heifers come with my highest recommendation.
