Assessor Comments	The Clarke family are renowned fourth generation cattle producers in the Upper Murray and have been using select Reiland Angus genetics in their herd for the last 20+ years. Always selecting Bulls with desired traits, focusing on high growth, being 400 & 600 DW, & strong carcass qualities, particularly positive Fat, IMF & EMA. These 'Top of the drop' steers stand up with good length, depth and width, with a proper traditional Angus head. Out of a large framed herd of heavily classed cows, & always sought after by repeat buyers & in-house clients for their reputation for performing in the feedlot & export markets, always having excellent growth for age and hitting specs with ease. An excellent lot of steers that carry the genetics & reputation to make an ideal investment. Buyers please Note. Vendor has the lighter brothers and a line of sisters in the same sale.
