Assessor Comments	A very neat line of vendor bred, HGP Free, Spayed feeder heifers. These heifers posses great frame for age and are all within the weight range for heavy export feedlot programs or backgrounders to take through to heavier kill weights. These heifers are grazing dry native and improved pastures with no grain or supplement assist which will add to the performance of these cattle. All heifers are structurally sound and all mouthed up 0-2 teeth. They were all spayed as weaners by a veterinarian and have been running with steers ever since. Heifers are in tick zone and will be scratched clean on farm by certified inspector before delivery. One heifer has blue scarring in one eye. Please note same vendor also has 55 feeder steers in same sale.
