Vendor Comments

Cattle would normally be taken to much heavier weights but due to dry conditions calves have to be taken off early.

Weaners are in great condition and should thrive going forward.

Assessor Comments

A cracking line of well bred Angus X Angus steer weaners on offer that wont disappoint, this is the lead draft that offer a

great chance to beat the rush and secure your weaners now. These steer weaners present in great forward condition and were bred out of large frame cows that consist of Glenavon, Bald Blair and Eastern Plains angus genetics. Steers are usually weaned off the cow and kept to heavier feeder weights but given the continuing dry conditions of the area and lack of feed a decision has been made to sell the lead draft of steer calves to ease the numbers. Off the back of great New England Angus genetics these calves will suit all Angus backgrounding, feeder or grass finishing markets going forward. Ideal low dollar Articles to put away for when the rye grass and oat crops come up !!

Assessor	Steve Daley (Level 1 Accredited)
Delivery Period	23/02/2026 to 25/02/2026 (3 days)
Delivery Point	"Invergowrie West" is located 19 km's west of Armidale. Lat: -30.5035714 "S Lng151.6523371 " E
