Temperament not assessed in
Paddock

Steers were very good to handle in and around cattle yards, odd steer did stir up in crush though as soon as returned to mob situation settled right away as can be seen in video. temperate is a strong feature in this line of steers outstanding to work.

Assessor Comments

Buyers on offer is 48 the lead draft of very good to outstanding quality vendor bred EU Jbas 7 Angus unweaned steers weighing 225-343kgs to ave 287.5kgs full at assessment. Steers present in fresh to forward store condition and have been grazing improved pastures while still being on mum and doing very well and should keep doing so given the right opportunity. Steers are out of a very heavily classed EU Angus herd based on Ben Nevis angus blood and bulls that have been selected for growth and IMF and steers are showing good depth and bone and would be ideal to put onto crop with having a nice tight weight group to sell as heavy feeders or put into the grass fed kill market. Steers have been well received by all prior purchasers on grass and grain. For further information please call. Please note steers will be weaned onto truck at delivery.
