		Traits
	2 Head	Horns

Assessor Comments	Buyers, on offer is a neat line of 35 Preg-Tested Empty Shorthorn & Shorthorn X Heifers. Heifers are of predominantly Yamburgan Shorthorn Blood with an infusion of Blue-E Composite breeding with a strong breeding emphasis placed on feed efficiency, calving ease, high fertility and moderate mature cow weights. Being an August/September 2024 drop heifer, they present as an ideal article for the eventual purchaser to retain as future breeders for either an upcoming Autumn calf joining or later, or to continue to grow out into larger feeder/kill specifications. Heifers predominantly display a large frame presenting in a store to forward/store condition. Please note, heifers are all GrassFed eligible, Greenham's NeverEver accredited, vendor bred and 100% lifetime traceable. For further information, lease feel free to contact.
