Assessor Comments	Buyers, on offer is a quality line of 100 Hazeldean Blood Angus X Angus Steers. Steers are a late July/August drop displaying all the attributes of quality breeding including good length of body and shape. These steers represent the lead draft of the Flick families annual weaner turnoff whereby a strong breeding emphasis is placed on 200 & 400 day growth, exemplified in these calves, particularly in what has been a tight season. All steers were weighed above 220kg at assessment to average 260kg. Note must be made of the steers quiet temperament and easy to handle nature. A great opportunity to secure a lead line of steers from one of the Boorowa districts renowned breeders. For any further information, please feel free to contact.
