Assessor Comments	Well bred two-deck line of mixed sex F1 Wagyu/ Angus Aug/Sept 2025 drop weaners that averaged 159kg full (136-213kg) at assessment. This is the complete drop with a small tail removed. They are bred out of Ardrossan Angus Cows by select Wagyu sires to suit F1 production (see attached sire links). Selling early due to the season, these were weaned at assessment and will remain on hay up until delivery. They are healthy and fresh just not carrying a lot of weight. Please note; media was taken of steers and heifers separately but they are being offering as a mixed sex line.
