Handled With	Very quiet, properly weaned calves. Bikes , On foot , Vehicles
Notable Traits	Traits 1 Head White on pizzle (see photo)
Assessor Comments	These are a very high-quality line of July/ August '25 drop steers that weighed 278kg full (234-318kg) at assessment. A small tail was removed at assessment. These calves are were properly weaned and very well educated, all deemed quiet to handle. These steers are normally sold at feeder weights in the spring but are being offloaded early due to the tightening season. They are setup perfectly having never had a setback and are demonstrating excellent weight for age. They will go on to achieve feeder weights quickly or grow into magnificent grassfed bullocks under the right conditions. They are Grassfed & Antibiotic free being part of the Greenhams Never Ever program. There is one steer with a white pizzle - see photo, option on this animal. Please note; vendor also offering 48 weaner heifers in this sale.
