Typically the Winnidad cattle are very good to handle. Working heifers through was no issue with the odd heifer pushing through to crush or being quick to exit. Five people working through yards would contribute. Photographing and videoing no issue with heifers settled in larger pen.

Bikes , On foot , Vehicles

Assessor Comments

A nice quality offering of 51 Angus heifers presenting in store to forward store condition. They have received their 7-in-1 booster & Pestigard (x 2) vaccination and are sired by Chiltern Park & Weeran Angus bulls, bred from a herd of Banquet, Barwidgee & Weeran blood cows. The Winnidad operation selects genetics on structure, fertility traits, above average growth, above 2.0 for IMF and positive fat. They have been pregnancy tested empty and are in healthy, fresh store condition. The Winnidad herd are noted performance cattle that have performed for previous purchasers. They will mature into deep bodied, functional matrons if given the opportunity. Presents a terrific opportunity to acquire very well bred, Angus heifers ready to join as future breeders or background and finish on grass or grain to trade or export markets.
