Notable Traits

	Traits
16 Head	Horn regrown after dehorning
1 Head	Ring worm scarrs head & neck

Assessor Comments Buyers predominately Santa & Angus/Santa HGP free steers that are ideal to take through to heavy feeder steers, they also could be taken on export weights & would fit a grass bullock programme. They have been running on dry feed until recent rain & will go ahead on on good feed & present in good store condition. The steers were very good to handle in the yards, race & crush & a credit to the vendor for the handling put in at weaning. The steer with the Bos Indicus traits has no crest & would fit a flat back feeder order. The steer mouthed as a 2 tooth had only the first permanent incisors up.
