Assessor Comments	A standout line of well bred EU Angus X Angus steer weaners on offer that wont disappoint, this is the lead draft of two different selected mobs from the Tighe herd. Steers are never usually sold as weaners but given the continuing dry conditions of the area and lack of feed a decision has been made to start to sell. Steers present in great condition and have come through the weaning process very well and were a dream to handle, yard weaned for 2 weeks on very good quality hay and pellets with regular handling. Off the back of great New England Angus genetics these calves will suit all Angus backgrounding, feeder or finishing markets going forward. Cattle not to be missed as they are from a well renowned herd for producing quality Angus feeder steers here in the New England.
