Vendor Comments: A very regrettable sale of weaner calves due the current weather conditions, Weaners present in great condition and have

been putting on up too 1.4 kgs a day, temperament a stand out. Calves that wont disappoint.

| Assessor Comments | An outstanding line of well bred EU Angus X Angus Steer weaners on offer that wont disappoint, this is the whole draft with a small tail taken out that offer a great chance to beat the rush and secure your weaners now. These steer weaners present in great condition and were bred out of large frame cows that consist of Clunie Range, Bald Blair and Booroomooka angus genetics. Steers are usually weaned off the cow and kept to heavier weights for backgrounding and the feeder trade but given the continuing dry conditions of the area and lack of feed a decision has been made to sell the lot. Steers have been weaned a week to two weeks as there was two different mobs, calves are very quite and were a dream to handle. Off the back of great New England Angus genetics these calves will suit all Angus backgrounding, feeder or grass finishing markets going forward. ! Quality large run of weaners not to be missed. |
