Assessor Comments	An outstanding line of well bred EU Angus X Angus Heifer weaners on offer that wont disappoint, this is the whole draft with a small tail taken out that offer a great chance to beat the rush and secure your weaners now. These Heifer weaners present in great condition and were bred out of large frame cows that consist of Clunie Range, Bald Blair and Booroomooka angus genetics. Heifers are usually weaned off the cow and kept to heavier weights for replacements and trading but given the continuing dry conditions of the area and lack of feed a decision has been made to sell the lot. Heifers have been weaned a week to two weeks as there was two different mobs, calves are very quite and were a dream to handle. Off the back of great New England Angus genetics a large portion of these heifer calves will make outstanding replacements with the vendor commenting that they are the best their ever bred ! Quality weaners not to be missed.
