Assessor Comments	Good quality steers presenting in strong forward store condition. representing the lead draft, these steers show good weight for age with thickness & length. weighing on assessment from 255kg to 325kg with an average of 285.4kg. Ideal cattle to background for feeder markets of finish to slaughter weights. please note the run of 55 steers in today's sale were marked at the same time, as a result a few older calves are slightly proud, not bully & expect this to clear up & present no issues with future sales. all steers were physically checked for buyer confidence.
