Temperament

Yards	Crush	Paddock
Quiet: 122 head	Quiet: 122 head	Quiet: 122 head

Extremely good cattle to handle, temperament is a factor in culling annually. Only 1 steer was slightly stirry in crush, once released he was very good to handle in the yards. Top cattle to handle all round!

Handled With: Bikes , On foot , Vehicles

Assessor Comments: 122 *EU ACCREDITED* Angus steers bred from an outstanding Angus Herd, this 122 all weighed from 200-250kgs, only a 50kg spread. Cows are selected for fertility, A1 type, milk, feet and confirmation. Sires are selected on weight for age, carcass traits (Fat & EMA), above average for IMF, perfect structure and must have the ability to compliment the female Herd. Steers received 2 booster shots of 7in1 within 6 weeks of each treatment late last year and also please note have been treated with BOVILIS MH+IBR in early Feb 2025. The 'Wollumbi' cow herd are consistently 600-700kg mature females that are extremely productive, also reaching feeder weights in calves at 11-12 months of age. The Pollard Family have been breeding Angus cattle for 30+ years, a unique opportunity to source exceptionally bred steers from a highly regarded Herd.

Assessor: **Jarrod Slattery (Level 1 Accredited)** Phone: 0428 695 700
