**Assessor Comments**

Buyers predominately Santa & Angus/Santa HGP free heifers that are ideal trade feeders could also be taken through to heavy feeder heifers, they also could be taken on to export weights & would fit a grass programme. Alternatively potential breeders could be selected & joined to a bull of your choice. They have been running on dry feed until recent rain & will go ahead on on good feed & present in forward store condition. The heifers were very good to handle in the yards, race / crush & a credit to the vendor for the handling put in at weaning. The heifers with the Bos Indicus traits have no crest.
